Barry,

You must have inadvertently sent me this vicious attack on Peter and Wanda, two people for whom I have the highest admiration.

My own experience with you has been a nightmare. Not only did you bring a lawsuit against me without cause (because I told you before you filed the suit, that I would give you all the JRI records and gladly quit the JRI), you prolonged the suit, forcing my attorney to go to New York at least twice and costing me over \$35,000 in legal expenses, when it should have cost me nothing. I had to take a second mortgage on my home, for which I am still paying, so every month I reminded about what kind of person you really are.

You might remember that it was I who first proposed the JRI. And I and people I brought into the JRI that gave all the money to start JRI and fund its initial years. I paid many of your expenses, you eat my food and slept in my home.

I have never met anyone like you Barry, and never wish to meet anyone like you again.

You whole career has been to justify Joseph Broz Tito, a water boy for the British, who's main task was TO COVER UP the Serbian Holocaust. You are a worthy successor to your hero. And when Kosovo is ripped from Serbia, Tito final legacy will have been written.

You better check your e mail address book and never cross my path again,
